

## Section 18 Emergency Exemption

### SECTION 18 QUARANTINE EMERGENCY SPECIFIC EXEMPTION FOR THE USE OF TILT® ON SOYBEANS FOR CONTROL OF ASIAN RUST (*Phakopsora pachyrhiza*) IN THE STATE OF MICHIGAN

EPA FILE SYMBOL 04-MI-23

EXPIRATION DATE: MARCH 1, 2007

**TILT**

EPA Reg. No. 100-617

**FOR CONTROL OF ASIAN RUST ON SOYBEANS**

Active Ingredient: Propiconazole: 1-[(2-(2,4-dichlorophenyl)-4-propyl-1,3-dioxolan-2-yl)methyl]-1 <i>H</i> -1,2,4-triazole .....	41.8%
Inert Ingredients:	58.2%
Total:	100.0%

**KEEP OUT OF REACH OF CHILDREN**

#### **WARNING/AVISO**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle.  
(If you do not understand the label, find someone to explain it to you in detail.)

---

#### **DIRECTIONS FOR USE**

---

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL  
MAY RESULT IN POOR DISEASE CONTROL, CROP INJURY, OR ILLEGAL RESIDUES.

Follow all applicable directions, restrictions, and precautions, including statements pertaining to  
the worker protection standards, on the EPA-registered Tilt label.

This label must be in the possession of the user at the time of pesticide application.

---

## General Information

---

---

### Soybeans

---

If soybean rust is in the area or conditions are conducive to the disease, apply 4-8 fl.oz/A of Tilt. Repeat at 14-day interval if conditions persist. It is important to protect the developing pod. Tilt should be applied no later than soybean growth stage R5. Timing should be R1 (ca. 50 days after planting) to R5 depending on the conditions.

Coverage and penetration are important for best results. Tilt can be applied by either aerial or ground equipment. Use sufficient water volume to provide thorough and uniform plant coverage. When using aerial application, apply in a minimum of 5 gals./A. When using ground equipment, apply in a minimum of 10 gals./A (a minimum of 15 gals./A is recommended).

**Restrictions:** To avoid possible illegal residues, (1) Do not apply more than 12 fl. oz./acre of Tilt per season. (2) Do not graze or feed soybean forage or hay. (3) **DO NOT** rotate to any crop intended for food, grazing, or any component of animal feed or bedding within 105 days of Tilt application, unless the crop appears on the product label. (4) A maximum of 2 total applications using approved Section 18 products collectively are allowed under this soybean rust Section 18. (5) A restricted entry interval (REI) of 24 hours will be observed.

Any adverse effects resulting from the use of Tilt under this emergency exemption must be immediately reported to the local State Department of Agriculture where the application takes place.
